#### VISION 2022 PLANS COMMUNITY SUMMIT

Vision 2022, the community-based movement to drive positive change within Manitowoc County, announces their second community summit on Thursday, September 13 from 3- 5 p.m. at the new Farm Wisconsin Discovery Center. All Manitowoc County residents are invited to attend.

Vision 2022 began in July 2017 with the goal of engaging the community in unified planning and action to identify and address key opportunities aimed at community growth and prosperity. To date, hundreds of residents have participated in Vision 2022 and the five teams which are focused on improvement in the areas of regional collaboration, community health, downtowns, young people attraction and retention and positive communication.

The teams have identified action steps to be taken over the next five years to meet established measures of success. According to Mary Maurer, V22 Community Director, "We have been hard at work developing action plans for the five initiatives and are very excited to share progress made. The Community Summit will reveal next steps and allow people to get involved on a team that they feel passionate about."

For more information on the summit and to register, go to [v22mc.org/summit](http://v22mc.org/summit).
